

Console

Detailed instructions for operating and navigating the console are provided in the README file.

1. Vendor Portal (Company Selection Screen)

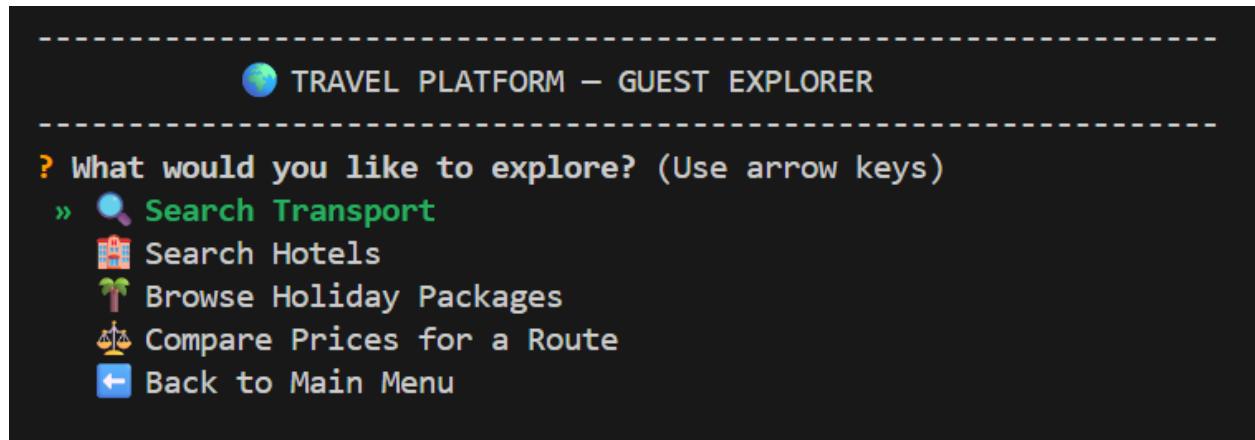

This screen appears after selecting the *Vendor Portal*. It shows a scrollable list of travel related companies (transport, hotel, and package providers) along with their IDs. The user can navigate using arrow keys to choose a specific company dashboard (e.g., AbhiBus, Air India, OYO, Taj Hotels). It acts as an entry point for vendors to manage or view their specific business data.

2. Traveller Portal (User Selection Screen)

This screen is shown when entering the Traveler Portal. It lists registered users

(travelers) with their IDs. The user selects who is accessing the portal using arrow keys. Once selected, the system likely personalizes the experience (bookings, history, preferences) for that specific traveller.

3.Main Menu (Portal Selection Screen)

This is the central navigation hub of the application. It allows the user to choose between different portals:

- Guest Portal
- Traveler Portal
- Vendor Portal
- Admin Portal
- Exit

The arrow indicates the current selection. This screen controls overall access to different roles in the system.

```
=====
WELCOME TO THE TRAVEL PLATFORM – MAIN MENU
=====
? Which Portal do you want to access? (Use arrow keys)
» → Guest Portal
   → Traveller Portal
   → Vendor Portal
   → Admin Portal
   → Exit
```

4. Guest Portal (Explorer Screen)

This screen is designed for users who are not logged in. It provides browsing and exploration options such as:

- Searching transport (flights, buses, etc.)
- Searching hotels
- Browsing holiday packages
- Comparing prices for routes
- Returning to the main menu

It focuses on discovery without requiring user authentication.

```
=====
WELCOME TO THE TRAVEL PLATFORM – MAIN MENU
=====
? Which Portal do you want to access? → Traveller Portal
Opening Traveller Portal...
? Who is accessing the portal? (Use arrow keys)
» Aditi Iyer (ID: 22)
Aman Jain (ID: 4)
Anjali Singh (ID: 7)
Arjun Reddy (ID: 17)
Deepak Nair (ID: 14)
Harsh Mehta (ID: 12)
Karan Patel (ID: 8)
Kunal Bansal (ID: 21)
Manish Kumar (ID: 15)
Megha Arora (ID: 24)
Neha Sharma (ID: 9)
Nikita Joshi (ID: 18)
Pooja Desai (ID: 11)
Priya Mehta (ID: 3)
Rahul Shah (ID: 2)
Ravi Teja (ID: 25)
Ritika Kapoor (ID: 13)
Rohit Verma (ID: 6)
Saurabh Gupta (ID: 10)
Simran Kaur (ID: 16)
Sneha Kapoor (ID: 5)
Tanvi Shah (ID: 20)
Varun Malhotra (ID: 23)
Vatsal Mori (ID: 1)
Yash Agarwal (ID: 19)
```

5.Admin Portal (Command Center Screen)

This is the administrative control panel for managing the platform. It provides high level operational options:

- Revenue & Financials (earnings, reports)

- Operational Management (system operations)
- Reviews & Quality (user feedback, ratings)
- Trends & Insurance (analytics, risk management)
- Back to Main Menu

It is intended for system administrators to monitor and control the platform.
